

I am writing to express my opinion regarding the LPFM measure. I listen to KLOVE all day long on a FM translator service, and it is the only christian radio station that I can get from my home and most of the places I travel in the car. If this measure were to pass it would take away this very important service to myself and others in my community. KLOVE serves the public interest because it provides messages of hope and encouragement. Please consider the importance of this choice to us, the public, because KLOVE is the only option of it's kind here, to take it away and replace it with another of the many stations that would play secular music, commercials, etc. would be to remove the ability to choose from the public.

Thank you for your consideration and for not passing this measure.

Sincerely,
Natasha Simeon
